Pakistan (Home)

ABOUT ME

I am a dedicated **Full Stack Web Developer** with over **5 years of experience** in backend development using **PHP**, **Laravel**, **Nest.js**, and **Node.js**, and frontend frameworks like **React.js** and **Next.js**. I specialize in building scalable, API-driven solutions, managing **MySQL** and **MongoDB** databases, and optimizing server performance using **AWS** services. I have successfully led teams of **6–10 engineers**, migrated legacy systems to modern frameworks, and delivered high-quality projects that improved performance by up to **50%**. With expertise in **Git-based version control** and agile methodologies, I am passionate about solving complex problems and delivering innovative software solutions that enhance productivity and value.

WORK EXPERIENCE

02/2024 – CURRENT Karachi, Pakistan
SENIOR SOFTWARE ENGINEER II GET LICENSED

- Worked in a **team of 6 engineers** (3 backend, 3 frontend) as a **Full Stack Developer**, ensuring seamless system integration.
- **Mentored junior developers** by reviewing pull requests (PRs) and managing code deployments, maintaining code quality standards.
- Migrated a **legacy Symfony project** to Laravel, optimizing MySQL migration scripts and reducing runtime by **50%** (from 8 hours to 4–5 hours).
- Contributed to a **UK-based vetting platform** by developing a task management module, enabling the resolution of **100+ tasks daily** by sales and support teams.
- Designed and implemented a **certification matrix** using Laravel for APIs and React/Next.js for frontend, enhancing user experience and platform functionality.

09/2021 – 01/2024 Karachi, Pakistan
SOFTWARE ENGINEERING TEAM LEAD DIGITAL AUXILIUS

- Began as a **Support Engineer**, supporting team building, onboarding, and development pipelines for **6–7 months**.
- Managed a **team of 10+ engineers**, overseeing task assignments, critical issue resolution, and server management in DevOps' absence.
- Migrated **10+ applications** from shared hosting to AWS EC2, leveraging S3 and IAM Users for enhanced scalability and security.
- Designed **four multi-tenancy products**, enabling efficient resource sharing across clients and improving delivery cycles by **15%**.
- Integrated **Laravel unit testing**, ensuring robust systems with improved software quality and fewer bugs.

06/2019 – 03/2022 Karachi, Pakistan
SOFTWARE ENGINEER (WEB) COOPERATIVE COMPUTING

- Delivered **20+ projects**, working solo and collaboratively within a **team of 20 engineers**, with expertise in third-party integrations.
- Reduced downtime by **70%** for a client platform through **Behavior-Driven Development (BDD)** testing using Laravel Dusk.
- Created a custom **Laravel composer package** for Microsoft WOPI, reducing future integration time for similar applications.
- Developed a custom **Stripe library**, streamlining subscription and payment workflows across multiple projects.
- Designed scalable APIs and modules to handle **high user demand** without performance bottlenecks.

EDUCATION AND TRAINING

01/2017 – 01/2021 Karachi, Pakistan
BACHELOR OF SCIENCE IN COMPUTER SCIENCE Indus University

DIGITAL SKILLS

Backend Development

PHP │ Laravel │ Node.js │ NestJS

Frontend Development

JavaScript │ jQuery │ ReactJS │ Next.js

Database Management

MySQL │ MongoDB

Server Management

AWS

Version Control

Git

CERTIFICATIONS

10/2015 – 10/2018
Diploma in Software Engineering | Aptech Computer Education

LANGUAGE SKILLS

Mother tongue(s): **URDU**

Other language(s): **ENGLISH**
